Fraser Centre to Go Up in One Day

A 16 x 78 foot mural of the luxury condominium, cinema & retail center will enclose the project's new sales office on the building site.

Downtown State College, PA (September 4, 2009): This Friday, a 16 x 78-foot mural of the Fraser Centre will be erected on the project site at the corner of West Beaver and South Fraser Street in Downtown State College. The mural was painted by Michael Allison of *studio efx*, Hollidaysburg, PA and consists of 39, eight x four-foot panels. As large as this seems, it is only about one-tenth the height of the finished project.

The mural will serve two functions: to give the community a better idea of how Fraser Centre will look when finished, and to present a more interesting façade to the project sales office trailer. During many home football game Saturdays, representatives of the project developer, Susquehanna Real Estate, will be in the sales office to provide details about the residences to prospective buyers. The sales office will be open this Saturday, September 5 from 9am to 2pm.

Leonard S. Fiore (<http://www.lsfiore.com>), General Contractor for the project will be erecting the mural all day Friday.

For more information on Fraser Centre visit the project website at <http://www.frasercentre.com>
